How to communicate with Delta? ☎ Call [+1-877-256-3035 (US)]

To contact Delta Air Lines, ☎ Call [+1-877-256-3035 (US)] the fastest way is to use the Fly Delta app or chat via their website. You can also call directly or visit them at the airport.
Here are the most direct ways to reach them:

Live Chat & App: Download the Fly Delta App for 24/7 messaging with a representative, or use the "Message Us" feature on the Delta Customer Support page.

Phone (US & Canada): Call Call [+44-120-420-8147 (UK) OR +1-877-256-3035 (US)].
International Phone: Check the Delta International Phone Numbers page to find the exact toll-free number for your location.

If you are instead looking to establish communication with Delta Industrial Automation hardware (such as a PLC or HMI) using a PC, you will need the appropriate software and cables:

PLC Software: Use the WPLSoft or ISPSoft programming environments.
HMI Software: Use DOPSoft.

Connection Type: You typically establish a physical connection using an RS-232, RS-485, or Ethernet cable, which may require a USB-to-serial converter depending on your PC
